VOL. XIV. NO. 42.

GREENVILLE, KY., THURSDAY, NOVEMBER 24, 1912

50c. PER YEAR, IN ADVANCE

COMMITTEE MEMBERS

SOME OF THE PEOPLE WORKING ON CHILD WELFARE EXHIBIT.

Well Known Kentuckians Enlisted in Efforts for Betterment of Conditions for the Child.

The following are a few of the many committees working to make the great Child Welfare Conference and Exhibit at Louisville, November 21-30 a success:

Hospitality.

Mrs. S. Thomas Bellard, Chairman; Mrs. Oliver St. John, Peter Lee Atherton, Mrs. P. H. Calhoun, Mrs. Artilla Cox, Dr. George Dunford, Mrs. George Dunford, Mrs. Anna E. Fawcett, Mrs. C. Henning, Mrs. A. H. Judah, Mrs. W. Knott, Mrs. Richard W. Knott, Miss Anna Norton, Mrs. Matt O'Leary, Mrs. Frederic C. Rockwell, Mrs. J. H. Stewart, Mr. C. Hollard Thurston, Thomas C. Timberlake, Mrs. Thomas C. Timberlake, Mrs. James Ross Todd.

Program.

Bernard Flechner, Chairman; Miss Jessie M. Flechner, H. B. Mackay, H. J. McFadie, Mr. Maxwell Savage, Mrs. Patty B. Semple, Place.

P. H. Galloway, Chairman; Bruce Halbrook, Frank Dasher.

Installation.

Geo. L. Allerton, Miss Edna Telfinger, James R. Keller, Henry Klauber, Claude Matlock, C. C. Shadley, Chas. Snedd Williams.

Publicity.

D. B. Goode, Chairman; J. V. Beckman, Bush Beckenridge, James Louis Bitter, S. B. Bunting-Gaskin, A. R. Dunlap, Miss Harriet Flechner, Miss Miriam Gaines, H. Lipscomb, Miss Mary G. Jones, Longfellow, Mrs. Donald Charles Neumann, Miss Helen Randolph, Fred Schwaner, Harry Summers, T. C. Underwood, Grey Woodson.

Welfare and Moral.

Chas. W. Allen, Chairman; Geo. Heacock, Thornton Ballard, Alfred Brandes, Mrs. Win. Morgan.

Health.

Dr. H. E. Tully, Chairman; Dr. R. M. Allen, Dr. Phillip E. Barbour, Miss Jessie C. Benedict, Dr. Florence Brundage, Miss Lilla Breed, Dr. W. Ed. Clegg, Dr. H. H. Davis, Dr. J. W. Lafon, Dr. J. Rowan Morison, Miss Linda Neville, Miss Elizabeth Shaver, Dr. J. A. Stucky, Dr. J. D. Trawick, Dr. Ap. Green, Dr. James A. Veatch, Dr. Dunnigan, S. Wilson, Schools.

E. O. Holloman, Chairman; J. M. Atherton, Miss Elizabeth Brookbridge, Principal E. F. Chaplin, Miss Louise Bellz, Miss Mary B. Bixby, Mrs. Melinda Bixby, Dr. O. L. Bow, Miss Jim Randolph, James Speed, Principal S. B. Tindley, Miss Pauline Witherspoon.

Industrial Committee.

Mrs. R. P. Holden, Chairman; Lefever, Alice Harriet E. Anderson, Mrs. Harry Bishop, Abbie S. Bramble, Miss Adele Brundage, Mrs. L. L. Burd, Mrs. Ruth Burd, Mrs. A. J. Ingalls, Dr. George A. Johnson, John Schmidauer, Settlement and Educational Movements, Mrs. John Little, Chairman; Mrs. John Little, Mrs. Mary Givens, Mrs. Kirkauer, H. C. McGehee, Mrs. Louisa Marshall, Miss Fannie Rawson, Miss Ruth Sappington, Recreation.

Fred Levy, Chairman.

Arthur Allen, Fred J. Drexler, V. H. Englehardt, Miss Vester Englehardt, William Hoge, Carl Gardner, Sam D. Jones.

PROGRAM Child Welfare Conference

WARREN MEMORIAL PRESBYTERIAN CHURCH.

1—Monday Morning, November 25, 10 O'Clock.

Prof. B. P. Huntoon, presiding.
A—Opening remarks by the Chairman. "Foods and Feed in Relation to Infants' Mortality."—Dr. J. Rowan Morison. Discussion opened by Mrs. Letchworth Smith.

B—"Preventable Blindness in Kentucky."—Dr. J. A. Stucky, Lexington Ky.; Miss Linda Neville, Lexington, Ky. Discussion opened by the Chairman of the meeting, Prof. B. B. Huntoon.

Monday Afternoon, November 25th, 3 O'Clock.

A—"Eugenics and Sex Hygiene."—Dr. J. B. Marvin presiding.
A—"Eugenics and Child Welfare."—Dr. John G. Trawick.

B—"Sex Education and Hygiene."—Chas. G. Birtwell. Discussion opened by Mrs. P. B. Semple.

8—Monday Evening, November 25th, 8 O'Clock.

Mrs. Morris B. Belknap, President of the Exhibit and Conference, presiding. Opening Address by the Presiding Officer. Address, "The Community's Obligation to Its Children."—Dr. E. T. Devine, New York.

4—Tuesday Morning, November 26th, 10 O'Clock.

"Education."—Prof. T. Y. Coates, Frankfort, Ky., presiding.
A—"Problem of the Rural School." Subject presented by Presiding Officer and Prof. Barksdale Hamlet, Frankfort, Ky. Discussion to be opened by Mrs. Chas. P. Weaver, Louisville, Ky.

B—"The Wider Use of the School Plan." Subject presented by Miss Pauline Witherspoon. Discussion opened by Mrs. Cora Wilson Stewart, Morehead, Ky.

6—Tuesday Afternoon, November 26th, 3 O'Clock.

"Recreation." Rev. Maxwell Savage, President of the Conference of Social Workers, presiding.
A—"Public Outdoor Play."—Mr. Graham Roney Taylor, Chicago, Illinois.

B—"Local Situation With Reference To Dance Halls."—Miss Ruth Sepinsky; Mr. James Yunker. General discussion on "Recreation" opened by Mr. Graham R. Taylor, Chicago.

6—Tuesday Evening, November 26th, 8 O'Clock.

Rev. Aquilla Webb presiding.
"The Public Health; How We Arouse the State of Louisiana."—Dr. Oscar Dowling, State Board of Health, Louisiana. Discussion to be opened by Dr. W. E. Grant, Health Officer of the City of Louisville; Dr. J. B. McCormack, Secretary of the State Board of Health.

7—Wednesday Morning, November 27th, 10 O'Clock.

"The Child and the Law."—Mr. Roger N. Baldwin, St. Louis, presiding.
A—"Probation as a Reformatory Measure, and What Probation Means."—By presiding officer. Discussion opened by Mrs. Cora M. Bain.

B—"The Street Child at Night."—Night Chief Patrick Ridge.

C—"The Work of the Board of Children's Guardians."—Judge S. J. Boldrick.

8—Wednesday Afternoon, November 27th, 3 O'Clock.

"Dependent and Neglected Child."—Presiding, Dr. Hastings W. Hart, Russell Sage Foundation, New York. Opening Remarks by Presiding Officer.

A—"The Work of the Kentucky Children's Home Society."—Mr. Geo. L. Sebon, Louisville. "The Institutional Care of Children."—Mr. O. E. Pflouts, Miss Elizabeth Walsh, Miss Mattie Strull. Discussion opened by Presiding Officer.

8—Wednesday Evening, November 27th, 8 O'Clock.

"The Delinquent Child and the Home."—Miss Sophonisba P. Breckinridge, of Chicago. "The Modern as Compared With the Obsolete Institution for Children."—Dr. Hastings H. Hart, Russell Sage Foundation, New York.

SIMPLY, CHEAP LOAD ROLLER THAT ANYBODY CAN MAKE

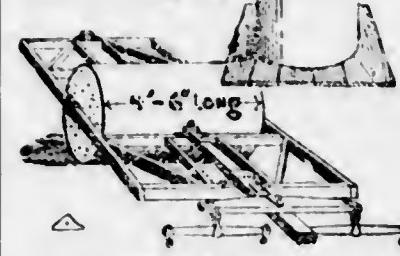

BUYING BREEDING POULTRY.

Boiler Shell Filled With Concrete at Cost of \$50.

A most excellent road roller can be built by any one and so cheaply that the cost will not be of any consequence.

Purchase a boiler shell four feet six inches long and three feet nine inches in diameter. Set it up on end, put a shaft in the center and fill the shell with concrete.

Make a frame like

CONCRETE ROLLER.

the one illustrated and you will have a live-ton road roller at a cost of about \$50.

A ROAD WASTE.

The appropriations made by the different states for improved roads have been wasted to a very large extent. New York has built about 650 miles of improved highway in Pennsylvania perhaps one-third as much. And neither state nor any other so far as we know has made proper provision for their maintenance. Here is where the waste comes in. More millions will be wasted unless some plan of keeping state roads in repair is put into operation soon. No sense in building costly roads and then letting them go to pieces for want of attention at the right time.

ASPHALT FOR ROADS.

Will Make Excellent Binding, Says London Engineer.

Believing that boys and girls gain new and broader views through social gatherings, working clubs and whole-some books, the directors of exhibit will show what the boy scouts do as well as activities of some settlements. The work of the travelling libraries and will provide a model children's library room where children visiting the exhibit may read and have their "Story Hour."

Wherever the poultry raiser should begin at the top every time—that is, start with standard bred fowls in every case by using standard bred breeders of both sexes. If this can not be afforded—usually it can—then get standard bred males, and make a nucleus of them. Then get a few more males and females and let them go to pieces with the whole flock. This will give a few standard bred birds and many others that are not standard bred. If one desires to have some that are pure standard bred blood and to know which are pure-bred and which are not, it will be necessary to have a pen for the pure-breds. Usually keep for poultry on the farm should not be tolerated, but an exception might properly be made in a case of this kind.

Wherever the poultry raiser should begin at the top every time—that is, start with standard bred fowls in every case by using standard bred breeders of both sexes. If this can not be afforded—usually it can—then get standard bred males, and make a nucleus of them. Then get a few more males and females and let them go to pieces with the whole flock. This will give a few standard bred birds and many others that are not standard bred. If one desires to have some that are pure standard bred blood and to know which are pure-bred and which are not, it will be necessary to have a pen for the pure-breds. Usually keep for poultry on the farm should not be tolerated, but an exception might properly be made in a case of this kind.

"This is the tar age, and as in different palliative tar is serving its purpose today as a temporary expedient, but something much more permanent than the primitive methods of tar spraying or even tar incendiaries is required for the future, and I maintain that permanency will be obtained only from the adoption as waterproof road crust binders of either Lake Triibid asphalt or Cuban asphalt, but preferably Cuban asphalt, owing to its having a higher melting point and its ability to withstand the rotting effects of water."

This is the tar age, and as in different palliative tar is serving its purpose today as a temporary expedient, but something much more permanent than the primitive methods of tar spraying or even tar incendiaries is required for the future, and I maintain that permanency will be obtained only from the adoption as waterproof road crust binders of either Lake Triibid asphalt or Cuban asphalt, but preferably Cuban asphalt, owing to its having a higher melting point and its ability to withstand the rotting effects of water."

The experience of practical breeders have so repeatedly shown that these principles are correct that there is no use in listening to the free advice given by some one who is unable to tell whether a fowl is standard bred or not. Wide experience and many observations are necessary to formulate rules for breeding, and it is safer to follow the advice of those who have attained great success than it is to follow the advice of some one who has ready never accomplished much.

With the crops practically housed and only the remnants to be gathered, there is now nothing to do but to fix up things generally and commence operations for next year's crop. One good way to begin is to sow rye, wherever possible, for grazing in the spring and for soil improvement. We want to plan to make larger yields per acre next year than we made this year, or last year either. The safest way to do this is to do better farming. Rye will hold much fertility that would be leached out of the soil by the winter rains and lost to us if there were no living plants to take it up. And when plowed under next spring, rye will give to the land, in addition to the stored fertility, humus which in most of it lands stand so much in need of, it is late, of course, to sow rye, but this is one of the things about which it can be truthfully said: "better late than never."

Missouri's Oldest Road.

Twelve miles of the old "King's Highway" near Sikeston, Mo., the old road in Missouri, is being rebuilt with rock macadam. Curtis Hill, the state highway engineer, has organized a special benefit assessment road district to carry on the work. Later the road will be extended to New Madrid.

FREE ROAD DRAGS.

To encourage road work Roy Williams, highway engineer of Macon county, Mo., gives a road drag free to every farmer who makes application for one. If the farmer does not use his drag it is taken from him and given to some one more industrious. The roads of the county have been much improved by the arrangement.

WE POINT

Muhlenberg County

is rich in coal, iron, timber, potter's clay, etc., and the most inviting field in Kentucky for investment of capital and pluck.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Finch, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE CARDUI Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder: 99 Per Cent. Digested

Bread made with alum powder: 67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

Local Mention.

Stores will all be closed next Thursday.

Mr. John S. Brindine was in Owensboro Sunday with friends.

We are to have a new blacksmith shop.

It will pay you to look at the wallpaper bargains now at Roark's.

Even the weather was in favor of the school fair—everything, in fact, except Central City.

Best one ever made—the Kirsch curtain rods; Roark has a large line.

"Bob White" is without doubt the best dotor on earth.

The School Fair and Corn Show drew the largest crowd to town last Friday that has ever been here.

Greenville streets are receiving the best cleaning they have had in some time, and appearances are inviting.

Messrs. Fred Head, Marvin Wells, Birney Shutt and Fred Irvin were in Owensboro last Sunday.

When you get "Quail" meal you get the best that is to be had.

One of the best things left us by our dusky predecessors was their Indian summer.

Mr. G. W. Morgan and wife were in Louisville a day or two the latter part of the week on a shopping visit.

We entertained most royal guests in the army of peace and progress that quickly took the town Friday.

Mr. Bob White is not adorning many tables just now; there are very few birds, or they are succeeding in making themselves scarce.

Greenville never entertained so many children and young people in her history as she did last Friday, when at least 2,500 were in town.

Baby buggies at Roark's.

Messrs. Morgan & Shuit received their Ford touring car Monday, driving same over from Owensboro in three and a half hours. Ship ment was made to Owensboro by river, and Mr. Fred Irvin was there to receive it.

Residence Destroyed By Fire.

Last Thursday night the home of Mr. Ed Long, near the depot, was destroyed by fire of unknown origin. There was insurance of \$800 on the house and \$300 on contents, which was fair protection.

SCHOOL FAIR

Held Here Last Friday, Was Phenomenal Success, and Inaugurates a New Order of Things.

There Were 2,000 School Children Among the 6,000 Attendants.

NEXT YEAR WILL BE MUCH LARGER

Muhlenberg had its first School Fair and Corn Show here last Friday. It was a great beginning, but small in comparison with such events that are sure to follow, for already plans are being perfected to make it annual event. School children from every section of the county, accompanied by teachers and parents, were here. There was considerable skill displayed in the decorations of the wagons, and many of the school children were dressed in uniform. By 9 o'clock the streets were lined with vehicles, and it was a question where to put the people. Mobilization was at the depot, and about 11:30 the children marched up town. There were 1,738 children in line, and their appearance and conduct were inspiring and impressive.

All available space in the courthouse was utilized for the display of specimens done by the children, and there were about 1,200 items exhibited, embracing manual training, domestic science, painting, drawing, needle work, invention, etc. All the displays were highly creditable, and some of them astonishing. Prof. McHenry Rhoades, who has visited many such Fairs over the State, declares that this was the best that he had seen, and that the attendance was largest. A conservative estimate is that there were 6,000 people in town, one of the largest crowds in many years. Several hundred dollars in premiums were distributed among the contestants in the School Fair, and the smaller prizes for the best corn, but the larger prizes offered for the greatest yield of corn cannot be made until the gathering is completed, and the reports turned in.

It was almost impossible to get in or near the court house, so vast was the crowd that was anxious to view the displays. Every effort was made to assist the movement of the people, but congestions were continually occurring. Everyone was happy and good-natured though, and took the pulling and hauling with smiles. We consider this the most important enterprise that we have ever entertained, and next year will be in better shape for it, and add to the comfort and refreshment of all who attend.

Better get a hunting license if you are hunting. It is said that there will be considerable supervision over the matter of hunting now, and any man is liable to have his name turned in to the game warden, to see if he has a license.

Muhlenberg county now has a twice-a-week newspaper, "The Argus," at Central City, appearing in improved form last Friday, with issues hereafter on Tuesday and Friday. The price of subscription has been increased to \$1.50, and the paper will be strengthened along all lines.

Roark's first shipment of 1913 wallpaper has been made by the mill, and others will follow soon. Great time to secure bargains now, as all 1912 patterns have been greatly reduced.

Mr. H. G. O'Neal, representing the Embalmers' Supply Co., Westport, Conn., was here Tuesday calling on his customer.

New patterns in the Kirsch curtain rods received by Roark this week. Almost the full line in stock now.

Mr. Dulis Moore, who lives near the depot, was married to Miss Nola McCown, daughter of Mr. Robert McCown, of Lovell's Chapel. Rev. T. Howard performed the ceremony at his home at 5 o'clock Tuesday afternoon, in the presence of a few friends.

See Coombs & Co. before you sell your beef hides.

Victors and Records at Roark's.

Please Over Stock Law.

A former Muhlenberg farmer who moved some years ago to the West has written a letter to one of his old friends, and the whole of the epistle, almost, is in comment over our adoption of the stock law in one district. He praises this strong indication of progress and economy, and declares that it is one of the best indications for Muhlenberg that could have been made. He declares that he would have refused to vote for it, and even gone out and fought it, but that since he has lived under our new plan there is nothing that would cause him to go back to it, and that he would not live in a country where stock is allowed to run at large, as it costs more to keep up a farm, and even, with the best fences, that cattle and stock at large are dangerous. We believe our people will come to this way of thinking when they behold the workings of the new law, the improved appearance of farms when fences are removed.

Mr. H. P. Summers and wife were here the latter part of the week. Mr. Summers is editor of the Smith's Grove Times, and his wife is well known here, where she lived several years ago with her father, Rev. Frazier, who was circuit rider.

Mr. J. L. Rogers has purchased the old jailer's residence, and is having the building razed. The immense timbers are an astonishment to everyone. The upper part of the building was for a time used as a jail, and in its day was as secure as the new one is now.

Now that the stock law has been passed in one magisterial district, there is strong talk of making it general over the county. It will come to that, for with one large block of the county closed against stock, nobody will feel inclined to turn his stock loose, as it may get into forbidden territory, and so cause trouble and expense.

Quail hunters have been fairly active, but with poor success. Mr. Trent Chatham bagged two dozen one day, which is the largest reported, and he declares that he doubts if he will be able to repeat that again, as birds are very scarce.

Mr. Henry Lewis went to Louisville last Sunday, and accompanied his wife home; she has been at Norton Infirmary for some weeks, under treatment of a specialist, and is very greatly improved, and will soon be entirely well, it is hoped by her many friends.

Mrs. D. N. McDermott, of Elizabethtown, who is a guest of Mrs. H. E. Harper, is suffering from a fracture of the fibula, sustained as she stepped from a surrey Tuesday afternoon. In company with Mrs. Harper and some friends en route to Graham, the horse became fractious, and backed the vehicle against a bank. No one was injured, but in stepping from the vehicle Mrs. McDermott in some way strained the bone. The injury was treated at once, and the patient is getting along nicely at the home of Mr. Harper.

More than 525 hunters' license have been issued in this county this fall, and it is not likely that game to that much value will be killed, particularly after the other expenses are figured in. The man who is caught out hunting without his license will be in hard lines, as every man who has put up for a license will be a good game warden, as he will resent any "free hunting" by persons who will not put up for a license.

Go to Sam R. Martin's tonsorial parlor and bath house for an easy, close shave or an up to date hair cut; near the Max Weir corner; leading barber shop in town, assisted by two first-class workmen.

Miss Lena Arnold has a full supply of bulbs as follows: Hyacinths for pot culture, 10c; each; colors: light and dark blue, yellow, white, pink, bright scarlet. Hyacinths for bedding, 75c. per dozen, in same colors. Chinese lilies, 15c. each; white Narcissus, 4c. per bulb or 35c. per dozen.

Mr. John B. Ferguson, who has been serving here as the representative for the Metropolitan Insurance Co., has been transferred to Central City in the same capacity, and will move with his family. We regret to lose these estimable people, who have been active in all movements for the betterment and up- building of the town.

Mrs. S. E. Rice Dies.

Mary Susan Grigsby, wife of Mr. S. L. Rice, died at their home here at 9:30 o'clock Monday morning, after an illness of some weeks from albuminuria, which for some days had been acute, and from which there had been no hope of relief. There were few more beloved women in the city, as her many Christian virtues endeared her to everyone. Deceased was a native of the county, and widely related. Rev. D. A. Barbee, her pastor conducted a service at the Cumberland Presbyterian church at 2:30 o'clock Tuesday afternoon, and interment was made in Evergreen cemetery, a large audience attending both services. Messrs. John F. Green, R. T. Martin, C. M. Howard, Wm. Lovell, L. Z. Kirkpatrick and J. H. Pittman were the pallbearers. Her husband and children have the deepest sympathy of a wide circle of friends.

The W. C. T. U. will serve its annual Thanksgiving dinner at the poor farm next Wednesday, and will be glad to have offerings.

Miss Nannie Mason Dead.

Miss Nannie Mason, aged 75 years, died Tuesday morning at the Sacred Heart Home, Sisters of Mercy, in Louisville, where she has lived since the death of her step-father, Maj. Gen. Don Carlos Buell, at Paradise, in November, 1893. Miss Mason was well known in this county, where she lived for many years, and had many friends here. Burial will be in St. Louis to-day, beside her mother and step-father. Her father was the first governor of California.

Everybody takes it for granted that the School Fair is a fixture, and some of our progressive business and professional men are so enthused that they are discussing the erection of a building to be used for the displays each year, and of course for other suitable purposes.

Central City is a great little entertainer. She has baseball games, street fairs, reunions, homecomings, election celebrations, etc. The people of the county are invited—and they accept. Muhlenberg has had its first School Fair. Central City was invited to join in the movement, and it was conspicuous by its absence. To thoughtful and observant persons it appears that Central City wants to do all the entertaining, at so much per. Our neighbor is the largest town in the county; it should be large enough to lend itself to every county enterprise, and liberal enough to get outside of town.

Powderly.

Mr. and Mrs. A. J. Mercer visited the former's parents Sunday.

Mrs. Rhone Harris from Nashville, Tenn., is making an extended visit to relatives here and in her old home town South Carrollton.

Mr. and Mrs. Will Herndon from Russellville recently moved to this place where they are welcome additions.

Miss Victoria Clemons, one of our most popular girls, has accepted a position at the R. Martin store at Greenville.

Mr. and Mrs. Will Herndon from Russellville recently moved to this place where they are welcome additions.

Miss Cordie Nicols from Greenville is the guest of Miss Ida Clemens.

Miss Mildred Allen from Greenville was entertained a few days last week by Miss Manie Heetsley.

The teachers of the Greenville High School were entertained at dinner Saturday by Mr. and Mrs. R. E. Frazier at their country home; a delightful day was spent in rambling over the farm and some interesting pictures were made.

What Are You Going To Do This Year

by way of making your business successful and your domestic life full of pleasure, if you are not supplied with telephone service of the Cumberland Telephone & Telegraph Company? Everyone should have a telephone. You are connected with all outside important points in local connection with all residences and business houses. For any information call manager.

ROAD & FARM IMPROVEMENT.

IRRIGATING MACHINE.

A Novel Device for Elevating Water from Streams and Discharging It on Higher Land.

It is becoming more and more apparent that irrigation is destined to have a larger place in the agriculture of the humid portion of the United States than a few years ago was thought possible. Market gardeners around all the large cities of the country are coming to realize the profit and security from drought which it brings, while the development of the arid west by irrigation is soon to occupy a place in the affairs of the nation, being already under investigation by the department of agriculture. The solution of the problem of irrigation rests largely in the quantity of water available and ability to direct it about the land at low cost. David Hartman, of Quartette, Nev., has designed a novel machine for elevating water from streams and discharging it on higher land, the apparatus working automatically and without cost, after the in-

LIFTING WATER FROM STREAMS
stabilization of the plant, is it itself inexpensive. In the illustration is shown a machine in operation. It consists of a frame resting on the bank of the stream, supported either by its own weight or anchored to poles driven in the earth, with a shaft pivoted at an angle of 45 degrees to support a series of buckets, revolving between the stream and the discharge trough on the frame. The buckets are mounted on arms radiating from the shaft, and besides each bucket is a broad plane blade which dips into the water at the lowest point is neared, the action of the current revolving the shaft and elevating the buckets in turn to the highest point of revolution, where they are tilted automatically to discharge their contents into the trough. Though the strength of the current be small, the quantity of water elevated will yet be large, as the flow is regular and unceasing.—St. Louis Globe-Democrat.

GOOD ROADS TRAIN.

Unique Traveling Educational Enterprise. Managed by Government Road Inquiry Office.

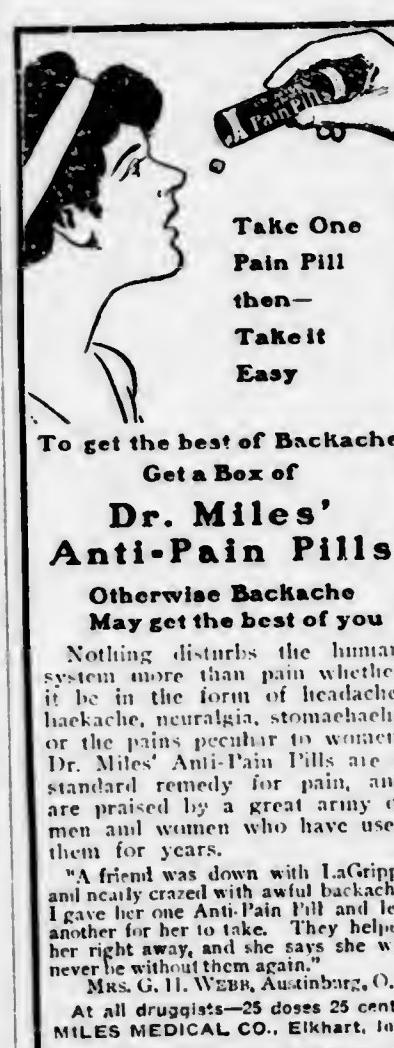

What might be called a school of wheels is being sent by the government through the southern states, with a corps of teachers on board, and a quantity of material to help illustrate with object lessons the instruction given to the people along the route.

This traveling educational enterprise occupies a train of a dozen cars, two of which are fitted up in hotel fashion for the accommodation of the staff of instructors and their assistants, while the other vehicles are flat cars loaded with an extraordinary variety of ponderous machinery. In fact, such a weighty and elaborate outfit for school purposes was never seen before in the world; and as the caravan moves along through the sunny southland the inhabitants may well be astonished. It is like a circus without the animals—a comparison by no means intended to be disrespectful, inasmuch as the affair is in reality of very serious importance and practical value, being designed for the purpose of encouraging the movement in behalf of good roads.

This peripatetic school is organized somewhat on the model of a kindergarten. All the people along the route who will come and be taught are its pupils, and classes run from \$50 to \$600 in number. At each stopping place lessons are given in the art of building roads, from half a mile to a mile and a half of first-class dirt road, gravel road or stone road being constructed. The kind chosen depends on the material at hand; if the stuff is available, a sample of each is built. There could be no more simple and effective means for conveying substantial and practical information.

The "good roads train," as the traveling school is called, is run by the National Good Roads Association, with the help of Uncle Sam. Director Dodge, of the government road inquiry office, is head teacher, and his chief assistant is Mr. M. O. Eldridge. Several engineers, specially trained in the business, accompany the expedition, and there are about a dozen expert workmen to perform the actual labor in the construction of the sample hits of road.

The amount and variety of machinery taken along is surprising. On the flat cars are carried road grading machines, rock crushing outfits (including elevators, separating screens and bins); steam rollers, horse rollers, traction engines, wheel scrapers and plows. The plows and wheel scrapers are used in the preparation of grades, for leveling hills and filling hollows. The traction engines are for running the crushers, hauling stone and drawing the plows and road machines. The road machines are for rounding up the earth foundation, and the rollers are employed to consolidate the material.—Pearson's Magazine.

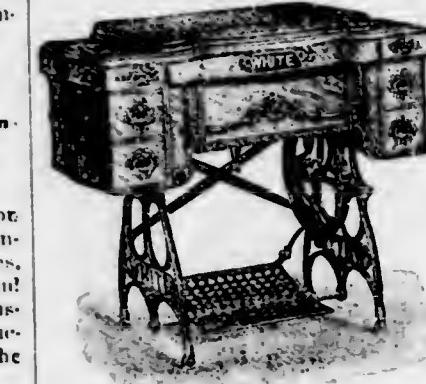

Indigestion

Indigestion is but a symptom of, and not itself a true disease. We think of Hypothenia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nervous condition.

It was this fact that induced Dr. Shoop to invent his "Shoop's Restorative." Gave direct to the stomach nerves, alone brought that success and favor to Dr. Shoop's "Shoop's Restorative." With such a light and easily digestible medicine, so much healing accomplishment were ever to be had.

For stomach distress, bloating, flatulence, bad breath, etc., try Dr. Shoop's Restorative Tablets or Liquid—and see for yourself what it can and will do. We sell and thoroughly recommend.

Dr. Shoop's Restorative

White Sewing Machines, in rotary and vibrator; needles, shuttles, etc. in stock for all machines. ROARK'S STORE.

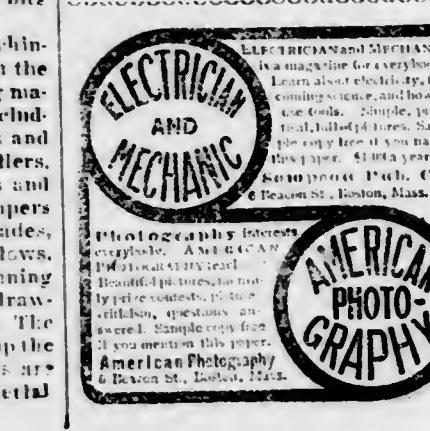

Miss Lena Arnold asks the patronage of the public, and guarantees that satisfactory work will be done in her clothes cleaning, pressing and repairing shop.

Very Serious
It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you to buy the genuine—
THEDFORD'S BLACK-DRAUGHT
Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines, and is better than others, it would not be the favorite liver powder, with a larger sale than all others combined.

SOLD IN TOWN

Telephone No 5 and your laundry will be called for and delivered.

Why Not Read The Courier-Journal?

HENRY WATTERSON
Editor.

WE CAN FURNISH YOU THE RECORD AND THE WEEKLY COURIER-JOURNAL BOTH ONE YEAR FOR \$1.15

We can also give liberal combination rate with Daily or Sunday Courier-Journal. Write Courier Journal Company, Louisville, Ky., for free sample copy of edition you desire, but be sure to send your subscription order to this paper—NOT to the Courier-Journal.

Deal at home as much as possible. Build up your home town. This will make you a better home market and enhance the value of your property.

Buy baby buggies at Coombs

Buy your bed robes at J. B. Coombs & Co. and get the cash.

Buy your baby's Gear in Oating cart for it is Roark's best cart on the market. Call and see it.

KILL THE COUGH AND CURE THE LUNGS
